

## **Nod32 3.0 Home Edition would not install on my Windows 200# Server**

Nod32 3.0 Home Edition is designed to only operate on non server platforms, Windows 2000 Pro, XP, or Vista. The Home Edition will not install on any Windows Server, you will have two options on installing on a Windows Server.

Option 1: You will need to purchase a Business License which is a minimal of 5 Computer users. Nod32 3.0 Antivirus Business Edition will install and run on Window Server Platforms.

Option 2: You will need to install Nod32 2.7 Home Edition onto the Server Platform. Nod32 2.7 will run on either Windows 2000 or 2003 Server. Nod32 2.7 also has a special installer for Windows 98/95/ or ME Operating Systems.

The Installer for Nod32 2.7 Home Edition can be found at this link: [Nod32 Home Edition Installers](#)

The Nod32 2.7 H.E. Installers are in the bottom group of downloads on the page. For Windows 2000/2003 Server installs, this is the Installer you need:

ESET NOD32 2.7 for Win NT/2000/XP/Vista (32-bit/64-bit) [2.70.39](#) 11.78 MB

For Windows 98/95/ or ME, this is the Nod32 2.7 Installer need:

ESET NOD32 2.7 for Win 95/98/ME [2.70.39](#) 10.98 MB
