

## **Line Card for Businesses**

### **Sales – 303.232.9070 Option 2**

#### **Layered Security:**

At Software Security Solutions we advocate a layered security model because different tools and techniques are good for different tasks. Data security is strongest when implementing a blended response to blended threats.

#### **Research:**

Since our beginning in 2001 we have constantly monitored the security landscape looking for trends, new threats and new security software. We do the research, you get the benefit. We focus on computer security—so you can focus on your business.

#### **Our Featured Solutions:**

- [Bit9 Application Whitelisting](#)
- [Backup Solutions](#)
- [ESET NOD32 Antimalware](#)
- [Email Security as a Service](#) (5 AV engines & 7 levels of SPAM Filtering)
- [Kaspersky Antimalware](#)
- [Sonic Wall Firewalls](#)
- [Web Security as a Service](#)
- **Managed Network Services from a Security Perspective**
- [Outpost Firewalls](#)

#### **Why choose Software Security Solutions?**

1. Software Security Solutions provides a single point of contact to support your layered security needs.
2. We carry only solutions from thought leaders in their respective threat categories.
3. Consolidation makes sense—particularly when it helps the two of the most important pieces of your business, securing the network and the bottom line.
